## 1 - CAPIC at the Saint Regis Hotel in DOHA.

### Established since 1955

**CAPIC** is a French family-owned and independent business. CAPIC is designing and manufacturing all its products in its 2 local plants covering 35000 m<sup>2</sup> and employing more than 140 persons.

The St REGIS Hotel in Doha is one of the best 10 hotels in the world opened in 2012.

One of the restaurants of the establishment, the ASTOR GRILL and its Chef Rudy Ramanjooloo (Pierre Gagnaire's former student) trusted us to equip their kitchen.

The kitchen is open to the dining room, thereby; the guests can see this exceptional stove. This piano Elite tailor-made has been installed by our dealer in Qatar, the Askar company.

## 2 - COMENDA dishwashers at RENAULT TECHNOCENTRE.

**The Renault Technocentre** is the main research and development facility of Renault. It covers an area of 150 hectares and integrates all departments involved in developing new products and industrial processes (design, engineering, product planning) as well as supplier representatives. The Technocentre gathers more than 12.000 employees and has 4 restaurants and 2 bars.

In each restaurant is installed a **COMENDA** dishwasher equipped with the patented Multirinse system that drastically lowers the consumption of rinse water. This exceptional water saving is combined with a proportional reduction in installed power, energy, detergent and rinse aid.

With the Multirinse, the new **COMENDA** dishwashing machines provide the lowest operating cost ever achieved

### 3 - Destination GATE GOURMET, Madrid ... Is there a pilot in the blast chiller / freezer ?

Up to 28 000 trays, including 10,000 hot meals are produced per day in the new kitchen GATE GOURMET (air catering world group, 250 millions meals/year), for 14 different airline companies, 260 daily flights departing from Madrid airport. These new facilities have just been inaugurated on June 1st 2013. **FRIGINOX** provided six roll-in blast chillers/freezers, pass-through models, in replacement of blast chillers operating at nitrogen. The **FRIGINOX** blast chillers/freezers are equipped with self-adapting intelligent i-CHILLING system (patent Friginox). This device optimizes the duration of cycles according to the product to be chilled while protecting foodstuffs against the surface freezing, without any operator intervention, and all this in compliance with the regulations in force.

Performance, reliability and quality, **FRIGINOX** commitment to greater food security.
